EDUCATION

Anurag University

B.Tech in CSE – **CGPA: 8.20**

2022 – 2026

Hyderabad, India

PROJECTS

RAG-based AI Assistant | Python, LangChain, FAISS, Streamlit, RAG

2025

- Engineered a RAG-based AI assistant using LangChain and FAISS for semantic search over custom knowledge bases.
- Built a document ingestion pipeline with chunking, embeddings, and vector indexing to improve retrieval quality and reduce hallucinations.
- Implemented conversational memory, prompt engineering, and modular retrieval pipelines for accurate multi-turn question answering.

LLM-powered Context-Aware Email Reply System | Python, JavaScript, HTML, CSS

2026

- Developed an AI-powered email reply system using OpenAI APIs with customizable tone, length, and writing style.
- Built REST APIs for response generation, conversation history, and session management with efficient request handling.
- Designed an interactive frontend with reusable prompt templates, real-time response generation, and reply history.

Full-Stack - BachelorsPay | React.js, Node.js, Express.js, MongoDB

2026

- Developed a full-stack financial management platform for roommates to split expenses, track payments, manage shared wallets, and settle balances efficiently.
- Implemented expense splitting, payment tracking, transaction history, spending analytics, automated balance calculations, and streamlined settlement workflows through a responsive interface for managing shared finances.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL
- **Backend & Web:** Node.js, Express.js, REST APIs, React.js, HTML, CSS
- **AI/Machine Learning:** LangChain, RAG, FAISS, Numpy, Pandas, Machine Learning
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Docker, VS Code
- **Core CS:** Data Structures & Algorithms, OOP, Operating Systems, DBMS

EXPERIENCE

Data Analyst Intern - EXCELERATE

Jul 2025 - Aug 2025

- Analyzed marketing datasets using Python (Pandas) and SQL to identify customer behavior and campaign performance insights.
- Built interactive Power BI and Tableau dashboards to visualize KPIs and support data-driven decision making.
- Automated data cleaning, preprocessing, EDA, and reporting workflows using Python and SQL, reducing repetitive manual analysis.

CERTIFICATIONS

- Google Cloud Career Launchpad(Generative AI Track)
- Oracle Cloud Infrastructure Data Science Professional
- 100xDevs FullStack Web Development Certification

ACHIEVEMENTS

- Organized 10+ tech events as GDG on Campus AU Core Member
- Selected for Jagriti Yatra 2025 – National entrepreneurship program with 525+ changemakers
- **Hackathon Wins: 1st Place** ('CERTIFY'), **1st Place** ('Noobs Learning') at National Level Hackathons
